Currently worked at TechO2 software Private Limited , Hyderabad from February 2018 to till now.

Designation: Software developer,

Functional Role: Java/J2EE Developer

Profile: develop and implement web-based Java application to support business requirements

EDUCATIONAL QUALIFICATION

 2015 MCA: Guru Ghasidas Vishwavidyalaya with 75 %

2012 BCA: Guru Ghasidas Vishwavidyalaya with 60 %

Responsibility

- ❖ JWT security implementation.
- ❖ Create Entity class based database table
- ❖ Implement Controller, Service, Repository ,
- ❖ bug fixing ,
- ❖ unit testing ,
- ❖ Excel sheet file upload,
- ❖ Scheduler task

Responsibility

- ❖ implements business logic
- ❖ Implement Controller, Service,
- ❖ bug fixing ,
- ❖ unit testing ,
- ❖ Excel sheet file upload,

Responsibility

- ❖ implements logic based on requirements,
- ❖ Implement Controller, Service, Repository ,
- ❖ bug fixing ,
- ❖ unit testing ,
- ❖ vuejs project setup,
- ❖ created vuejs components,
- ❖ vuejs scripting,
- ❖ Scheduler task,

Responsibility

- ❖ implements logic based on requirements,
- ❖ Implement Controller, Service, Repository ,
- ❖ bug fixing ,
- ❖ unit testing ,
- ❖ vuejs project setup,
- ❖ created vuejs components,
- ❖ vuejs scripting,

PROJECTS

Title: Ford Connect
Url: fordconnect.hartehanks.com
Platform: - Java, spring boot ,Angular 4,HTML5, Bootstrap, Mysql .

Description:

This web application is design and developed to store the information about the Leads, Cases, Owners and Dealers of Ford Motor company. It has 4 modules Admin, Lead, Case and Owner. Application has also role management. These module can be accessed through the privileges provided to the users. By using this web application Admin can create new record for Lead Case, owner and even can create new Admin. User will get the link and can activate their account by clicking on that link.

Title: Agrogo
Url : agrogo.com
Platform: - Java/J2EE, play framework ,Ebean,Jquery, angulr.js, Postgresql
Description:

AGROGO is an online marketplace for verified traders and producers of physical agro commodities and products, and leading global trade execution services providers,
One-stop-solution for all trade execution requirements, such as Ocean Freight, Marine Cargo Insurance ,Inspection, Trader Finance, Pest Control etc.
An array of reliable leading global service providers offering highest quality of service at market competitive prices.
Improves profitability by reducing capital turnaround time. Book any service anytime, from anywhere, on-line in less than 5 minutes

Title: workfall
Platform: - Java, spring boot ,vue.js,HTML5, Bootstrap, Postgresql .
Url: workfall.com

Description:
Workfall designs, develops and delivers a software product without having to worry about managing tech teams.It takes entire ownership of an application from ideation to final delivery. It acts like an end to end platform which is useful for any resource in the project by providing the transparency with real-time tracking and clear picture of the work status displayed in the form of status report graphs. Even the external resources such as Clients, Developers and Testing team can have access over this application. Project manager here holds the entire responsibility of dividing the tasks among the team and make sure the work done systematically. This application also contains test management and defect management functionalities. By using this, QA can upload the test scenarios, test cases and run those and can raise, assign and export the defects.
